Status: Active (deactivate) Company: No Enterprise Delete API key

Access key:  
Scopes: OAuth2ReadPll OAuth2Read OAuth2Write OAuth2Delete OAuth2Purchase OAuth2Share  
Status: Active (deactivate) Company: No Enterprise Delete API key

Click on the API keys tab and click Create new API key button

API Key Secret

The API key's access key is NQQazlBmddocKL87fRh5XKNr and the secret key is TLMhh890GvljwxJ83l1Zo8h3JycJsglZgLCpMHKKhxMZoy Please transfer this securely to your application now as you will not be able to display this secret key string again.

Close

Note down the access key and secret key.

Do not share the access key and secret key!!
